

Galaxy Girls: Empowering the Next Generation of Women in STEM

In a world where women are often underrepresented in STEM fields, it is essential to celebrate the achievements of those who have broken down barriers and made significant contributions to these important areas.

Galaxy Girls: 50 Amazing Stories of Women in Space is a book that does just that. This inspiring book highlights the remarkable stories of 50 women who have played a vital role in space exploration, from astronauts to engineers, scientists to mission controllers. Through their dedication and determination, these women have shattered stereotypes and paved the way for future generations.

Meet the Galaxy Girls

The Galaxy Girls featured in this book come from all walks of life. They are from different countries, backgrounds, and ages. But they all share a common passion: space. Some of the featured Galaxy Girls include:

- **Mae Jemison**, the first African American woman to travel to space
- **Sally Ride**, the first American woman to travel to space
- **Valentina Tereshkova**, the first woman to travel to space
- **Svetlana Savitskaya**, the first woman to perform a spacewalk
- **Judith Resnik**, the second American woman to travel to space
- **Margaret Hamilton**, the computer scientist who developed the software for the Apollo 11 moon landing
- **Nancy Grace Roman**, the astronomer who helped to design the Hubble Space Telescope
- **Mae Carol Jemison**, the first African American woman to serve as a NASA astronaut
- **Joan Higginbotham**, the first African American woman to earn a doctorate in electrical engineering
- **Ellen Ochoa**, the first Hispanic woman to travel to space

The Importance of Role Models

Role models are important for everyone, but they are especially important for girls and young women. When girls see women who are successful in STEM fields, it shows them that it is possible for them to achieve their own dreams. The Galaxy Girls featured in this book are role models for girls and young women all over the world. They show that anything is possible if you set your mind to it.

Inspiring the Next Generation

Galaxy Girls: 50 Amazing Stories of Women in Space is a book that is sure to inspire the next generation of women in STEM. It is a book that will show girls and young women that they can achieve anything they set their minds to, regardless of their gender. This book is a must-read for anyone interested in space, STEM, or women's history.
